OAUG News Release

Oracle Applications Users Group Offers Free eLearning Sessions

ATLANTA, Feb. 14, 2006 – The Oracle Applications Users Group (OAUG), the world’s largest user knowledgebase for the family of Oracle® Applications users, announces the availability of free, easy-to-access educational and training sessions for OAUG members through the OAUG eLearning program.

The program’s sessions are presented by expert instructors and fall into two categories: *OAUG Training Tuesdays* and *OAUG Community Thursdays*. *OAUG Training Tuesdays* offer sessions covering an extensive range of topics, such as implementation issues or the use of Oracle’s E-Business Suite. Participants can choose from among four different session times.

OAUG Community Thursdays highlight the best-of-the-best educational and training sessions, and offer discussion forums as hosted by OAUG geographic (Geos) and special interest groups (SIGs). Each session is presented twice on its scheduled day.

“These sessions are for every OAUG member, from novices interested in learning more about the look and feel of Oracle’s E-Business Suite to experienced users wanting to further develop their skill sets,” said Patricia Dues, president of the OAUG. “A diverse choice of subject matter and sessions offers the growing family of Oracle Application users a practical tool for getting more from their Oracle Applications.”

Registration is required for all OAUG eLearning sessions. To register or find out more about the OAUG eLearning program, go to www.oaug.org/elearning.
