OAUG News Release

OAUG Develops Best Practices Forums for Members

- Provides venues for sharing experience, exchanging ideas -

ATLANTA, April 18, 2006 – The Oracle Applications Users Group (OAUG), the world’s largest user knowledgebase for the family of Oracle® Applications users, announced two best practice forums to enable members to share experiences and new ideas.

In partnership with ERP Seminars and AMR Research, the best practice forums provide additional networking opportunities and resources to solve common challenges associated with Oracle Applications and strategic business issues and processes. The first forum, the Oracle Users Best Practice Board, is an online community and repository for white papers on a variety of topics under the umbrella of Oracle Applications. Additionally, specific discussion topics are spotlighted monthly on a select number of topics. Users can seek or offer advice in a forum on those issues. Any OAUG member company, user or solution provider can take advantage of the Oracle Users Best Practice Board.

The second forum, the Oracle Best Practice Peer Forum, serves as a networking community where executives whose companies are users of the Oracle E-Business Suite can discuss Oracle implementations, rollouts and ongoing management issues. Any OAUG member company with revenues exceeding \$500 million and have used Oracle’s E-Business Suite for more than three years is eligible to participate.

“The Oracle Users Best Practices Forums provide unprecedented networking and access to leading Oracle customers, OAUG members and AMR analysts,” said Patricia Dues, president OAUG. “These forums are part of our ongoing commitment to the continued education of our members. They will have online access to a wealth of information from others’ experiences.”

For more information on the Oracle users best practice forums, please visit <http://www.oaug.org/resources/bestpractices.html>.

About Oracle Applications Users Group (OAUG®)

The Oracle Applications Users Group (OAUG) is the world's largest knowledgebase for Oracle® Applications users. Representing more than 2,000 member companies worldwide and more than 25 percent of the Fortune 100, OAUG provides users of Oracle Applications with education, networking, training and support via a wide range of activities including conferences, publications, special interest groups and online communities. The OAUG serves as an advocate to Oracle Corp. on behalf of all Oracle Applications users.
