OAUG News Release

OAUG Announces Strategic Alliance with Australian Oracle Users Group

- Partnership creates a single user group in Australia for the Oracle group of products -

ATLANTA – May 31, 2006 – The Oracle Applications Users Group (OAUG), the world's largest knowledgebase for Oracle® Applications users, has announced a key alliance with the Australian Oracle Users Group (AUSOUG). This alliance demonstrates the joint commitment shared by both the OAUG and AUSOUG to the increased visibility and recognition of the Oracle family of products.

Through the partnership, AUSOUG members have expanded access to the OAUG community. OAUG members are in turn invited to participate in the face-to-face meetings and local support currently enjoyed by AUSOUG members throughout Australia. Participating members benefit from numerous educational and communication tools designed to enhance productivity and empower users to maximize their investment in Oracle Applications. Together, the OAUG and AUSOUG offer national and international conferences, state meetings, newsletters, technical briefings, business events, knowledge transfer, advocacy and a communication channel to Oracle.

“As Oracle expands its reach across the globe, so must the OAUG,” said Patricia Dues, president of OAUG. “Partnering with AUSOUG is an example of how our organization serves as an advocate for Oracle Applications users throughout the world, as well as an ally and partner to Oracle Corp.”

“We have always been committed to providing our members with the critical tools and resources to enhance their use of Oracle Applications,” said Martin Power, president of AUSOUG. “This partnership enables our members to have a dialogue with other active Oracle users, which will positively impact the Oracle family of products, as well as lend support to Oracle’s increasingly important role in the global marketplace.”

About Oracle Applications Users Group (OAUG®)

The Oracle Applications Users Group (OAUG) is the world's largest user knowledgebase for Oracle® applications users. Representing more than 2,000 member companies worldwide and more than 25 percent of the Fortune 100, OAUG provides users of Oracle Applications with education, networking, training and support via a wide range of activities including conferences, publications, special interest groups and on-line communities. The OAUG serves as an advocate to Oracle Corp. on behalf of all Oracle Applications users.

For more information about OAUG, visit the Web site at www.oaug.org.

About the Australian Oracle Users Group (AUSOUG®)

The Australian Oracle User Group (AUSOUG) is Australia's preeminent independent body for Oracle® users and professionals. Representing in excess of 2,500 individual members and member companies, AUSOUG, in partnership with the OAUG, provides the technical and applications user communities with education, information updates, networking, training and on-the-ground support. A comprehensive range of activities including monthly meetings, annual conferences, quarterly journals, electronic publications, special interest groups and cooperative partner events are available in all states of Australia. AUSOUG maintains and sponsors regular dialogue between Oracle Corporation and its members for the mutual benefit of both communities.

For further information on AUSOUG and its member services, visit www.ausoug.org.au.
