## OAUG News Release

### **OAUG Creates Online Community Forum**

*- Enables OAUG members to network, participate in worldwide discussions -*

**ATLANTA – July 24, 2006** – The Oracle Applications Users Group (OAUG), the world's largest knowledgebase for Oracle® Applications users, has announced the creation of the OAUG Community Forum. This Web-based discussion arena enables OAUG members to participate in conversations with other members around the world on a multitude of Oracle-related topics.

The OAUG Community Forum features two topic areas: user topics and technical topics. The user topics section offers discussions on end-user issues related to the Oracle family of applications. The technical section highlights issues surrounding the implementation and administration of Oracle Applications.

The OAUG Community Forum is hosted on the OAUG's Web site, [www.oaug.com](http://www.oaug.com). To view and post to the OAUG Community Forum, a user must have an OAUG profile. Any person who has been listed as an OAUG contact within a member organization, or has registered for an OAUG conference, already has a member profile and can participate in the forum's discussions. Others can follow simple instructions to set up a profile and begin participating in the discussions.

As topics become especially popular, or trends change, the OAUG will add new subtopics or modify existing topic areas. The OAUG Technology Committee monitors the OAUG Community Forum to ensure that it meets user needs.

"The OAUG is committed to its mission of providing education and information-sharing opportunities to our membership," said Patricia Dues, president of the OAUG. "The OAUG Community Forum enables our members from across the globe to come together and share their Oracle Applications experiences."

## **About Oracle Applications Users Group (OAUG®)**

The Oracle Applications Users Group (OAUG) is the world's largest user knowledgebase for Oracle® applications users. Representing more than 2,000 member companies worldwide and more than 25 percent of the Fortune 100, OAUG provides users of Oracle Applications with education, networking, training and support via a wide range of activities including conferences, publications, special interest groups and on-line communities. The OAUG serves as an advocate to Oracle Corp. on behalf of all Oracle Applications users.

For more information about OAUG, visit the Web site at [www.oaug.org](http://www.oaug.org).
